

## **Jo Laker Profile:**

I have been a governor since 2017, when my twin boys were in reception. I have enjoyed getting to know more about the school, its pupils, staff and governors during that time.

I was keen to become a governor to make use of the experience I have gained during my career to support the school. I have worked in the Civil Service for over 18 years in various positions. I have worked in operational and policy roles and I now work in project delivery.

I look forward to further supporting the school over the coming years.
