

Milton Mount Primary School - Years 3 to 6

SIMULATION CITY Afterschool Club

Get ready for an awesome adventure where you get to design and build a simulation of your very own city using a super cool 3D modelling software! Each week, you'll add new features to your city, like buildings, parks, cinemas, and so much more. As you build, you'll watch your city come to life right before your eyes.

Remember, using colour is key to crafting the perfect look and feel for your cityscape. Whether you're aiming for a vibrant and exciting New York City or something more mystical like Gotham City from Batman, your choice of colour will set the tone. You can draw inspiration from cities you've visited before or invent a completely new one from your imagination; it's all up to you! The goal is to use your creativity to make the coolest city ever.

In this workshop, creativity earns points. In the final week, the team with the most points wins a prize. Let's get building and see our amazing cities come to life!

*No club on
18th June

**"You can't use up creativity.
The more you use, the more you have"**
