

## **Jo Laker – Parent Governor**

I was elected as a Parent Governor in January 2017, so I am very new to the role and have a lot more to learn, but I am enjoying getting to know more about the school, its pupils, staff and governors.

I was keen to become a governor to make use of the experience I have gained during my career to support the school. I have worked in the Civil Service for 14 years in various positions. I have worked in operational and policy roles and I now work in strategy and change looking at ways to improve casework capabilities.

My twin boys started reception in September 2016, so we are all new to the school, but we have settled in well and I look forward to a long involvement with the school.
