

## **Mrs Lesley King – Local Authority Governor and Chair of Governors**

I passionately believe that all children deserve the best possible start in life, so I became a parent governor once both my children were at school, they are now both at secondary school.

I am appointed by the Local Authority and have been Chair for over five years and have served on various committees from both the resources and learning side. My main role is to oversee the governing body and ensure we are doing the best job that we can.

I work closely with the Headship Team and I am often in school. I love what I do, despite the time commitment and challenges!

In another lifetime I worked in retail management.
